DETAILED ACTION

Response to Amendment

1. This is in response to amendment filed 12/20/04. Claim 1 has been amended along with a new abstract and amendments to the specification. The claim and specification amendments overcome the objections held by the examiner in office action dated 12/01/04. Claims 1-12 are allowable over prior art.

Drawings

2. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because character of lines, number and letters, are not uniformly thick and well defined, clean, durable and black (poor line quality). Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.
